

VP Racing Opens New Multi-Purpose Facility Western Growth Drives Expansion

San Antonio, TX (January 7, 2025) - VP Racing Fuels, Inc., recognized worldwide as the leader in performance fuel products, today announced the development of a new multi-purpose facility in Parker, Arizona. The property will serve VP's continuing growth in western US markets and beyond.

"VP Racing has experienced phenomenal growth across this country and, in fact, globally, in recent years, a good portion of it driven by the western half of the nation," said Alan Cerwick, President & CEO of VP Racing. "The location and features of this new facility will boost our production and distribution capabilities, allowing us to exceed our customers' expectations and accelerate future growth in the region and throughout the US."
